*What are we failing to foresee or present in our cases that you need to know as a fact finder? How are you using the new parenting plans? What is the best way to move a case forward when visitation has been lacking/not happening? Remote hearings: What, if any, types of cases or proceedings do you expect the court to continue to handle virtually as we return to in person hearings? What does your jurisdiction handle by video conference and what do they handle by phone? Any tips you have for virtual proceedings?*

*Specific anonymous questions may be sent to a program chair.*
