New eviCore prior authorization radiation oncology updates released

As of Oct. 1, 2023, the following codes will not require prior authorization through eviCore.

Radiation Oncology Updates	
Section: RO.TX.11.A	Reduced number of fractions allowed for whole brain radiation therapy from 15 to 10

Please refer to the updated guidelines as incorrect prior authorizations could result in increased denials. For more information on all of the updated eviCore guideline documents, please visit eviCore.com.
