

Security Health Plan now handles prior authorization for acute rehabilitation and long term acute care admissions

Effective **March 1, 2019**, responsibility for prior authorizations (PA) for acute rehabilitation and long term acute care inpatient admissions has transitioned from naviHealth to Security Health Plan. All new inpatient admissions will require PA with Security Health Plan. Security Health Plan manages PA for members in these plans: Commercial, Medicare Advantage, Marketplace, BadgerCare and Security Administrative Services (SAS) (Marshfield Clinic Health System employer group only) members.

NOTE: For all existing authorizations completed by naviHealth, a new authorization will not be required with Security Health Plan.

To request a prior authorization, please call Security Health Plan at 1-800-991-8109 or fax all relevant information to 715-221-6616.
