

Pharmacy prior authorization and post service claim edits: Updates for 2019

Security Health Plan requires prior authorization (PA) or post service claim edits (PSCE) for certain prescription medications in order to ensure coverage and payment for those services. A number of requirements have been added for 2019 as we work to make sure all care, services and treatments are medically necessary.

PSCE through Security Health Plan has been removed as of October 1, 2018:

- Specialty Drug infusion in the home, office based and outpatient setting infusions
- Zometa® & Reclast® (zoledronic acid)

Security Health Plan will implement additional PSCEs beginning January 1, 2019:

- Takhzyro® (lanadelumab-flyo)
- Haegarda® (C1 esterase inhibitor)

Providers are reminded to complete your PA request(s) as efficiently as possible. Log in to your provider portal account at <https://provider.securityhealth.org>. Here, you can complete and submit your PA request with your clinical documentation – all online.

You can also verify members' eligibility and benefit information on the provider portal, or by calling Customer Service at **1-800-472-2363 (TTY 711)**. Providers with questions on submitting a PA request can contact us at **1-800-548-1224 (TTY 711)**. We're happy to walk you through the PA process.

Magellan Rx will implement additional PAs and PSCEs beginning January 1, 2019.

- EXONDYS 51® (Eteplirsen)
- SPINRAZA® (Nusinersen)
- Mozobil® (Plerixafor)
- Eylea® (aflibercept)
- Lucentis® (ranibizumab)
- Macugen® (pegaptanib sodium)

Magellan Rx will implement additional PSCEs beginning January 1, 2019.

- REMODULIN® (Treprostinil)
- Flolan/VELETRI® (Epoprostenol)

This is only a partial list of the new prior authorizations and post service claim edits required of members and providers to ensure payment for services. You can review a list of medications that will require a prior authorization on our website
