

View hospital access payment reports online

Log on to the Security Health Plan Provider Portal and gain convenient electronic access to your practice's hospital access payment reports easily. These payments are distributed monthly and are based on the number of Medicaid-qualifying inpatient discharges and/or outpatient claims from the prior month for an eligible hospital.

Right now, the Marshfield Clinic Health System sends payments to Security Health Plan eligible providers by paper checks. In the future these payments will be distributed electronically through ACH payments, which are more secure and cost-effective. You will receive information on how to switch to electronic payments with an upcoming paper check mailing.

Visit <https://www.securityhealth.org/providers> to access the Security Health Plan Provider Portal and view an itemized list of your hospital access payments. Click on the "Communications" listing, then "Hospital Access Payment Summaries" to view the breakdown of payments.

If you do not have access to the Provider Portal to view the hospital access payments, please contact your facility's Security Health Plan Provider Portal organization administrator to grant you access to the Provider Portal. If your facility needs to establish an organization administrator or requires further assistance in setting up a Provider Portal account, please contact our Provider Customer Service Line at 1-800-548-1224. We are available Monday through Friday from 8 a.m. – 4:30 p.m. central time.
