Mission

Project Learning Tree advances environmental literacy and promotes stewardship through environmental education, professional development, and curriculum resources using trees and forests as windows on the world.

Vision

Project Learning Tree is committed to creating a future where the next generation values the natural world and has the knowledge and skills necessary to make informed decisions and take responsible actions to sustain forests and the broader environment.

What is Lend an EAR Winter Reading Challenge?

To foster an appreciation for natural resources and encourage students to share the joy of reading, Alabama Extension is pleased to offer a winter reading challenge. Explore environmental awareness through reading. [LEARN MORE](#)

[Eco-Friendly Fridays](#) is an environmental education webinar series. Join the team for training sessions on traditional conservation topics as well as new and emerging issues in environmental education. This free virtual series offers effective best management practices (BMPs) aimed at safeguarding human, animal, and environmental health and practical solutions to help reduce your ecological footprint. Whether you are an educator, an environmental professional, or a nature-lover, tune in to discover how you can become a better steward of the environment and its precious resources.
