

Clear Water Alabama (Protecting Alabama's Surface Waters)

October 15, 22 and 29, 2020

2020 Clear Water Alabama | October 15, 22 and 29, 2020

Clear Water Alabama began as Red Water Blues in 2004 to provide technology to protect Alabama's surface waters and related resources during construction activities. The program evolved in 2008 to include erosion control, sediment control and stormwater management.
