Education Program**

**Sanitation, Oxidation
& Chemical Safety
With Todd Schwab**

Thursday, October 21, 2021

1:30 p.m. Registration

2:00 p.m. - 4:00 p.m. Class

PEP Tempe — 1245 W. Geneva Dr., Tempe, AZ 85282

Summary: We treat water three different ways: chemically, biologically and physically. In this class, we will focus on chlorine.

When we biologically treat the water, it simply means that some type of sanitizer (such as chlorine) has been added to kill disease-causing organisms (pathogens) and remove unwanted contaminants. Our goal is safe, clean, clear and sanitary pool or spa water.

When dealing with swimming pool and spa chemicals, certain precautions must be taken concerning their usage, storage and handling to avoid a potentially dangerous situation.

Target Audience:

Individuals who are new to the pool industry or need to improve their water chemistry skills.

2 CEUs Available

Registration

PHTA Members: \$50.00 per person

Non-members: \$75 per person

PAYMENT IS DUE IN ADVANCE OF THE PROGRAM
