

A message from one of our foster parents:

"I can't thank Best Foot Forward enough for the beautiful Frozen Backpack, all the books, the dress and tank, and the amazing bowling party. R had the time of her life!!!! When she goes, if she does, she will leave with the gift of learning. She loves books and reading and learning new things. And she wants to grow up to be something very special—like a veterinarian or doctor.

We have showered R with so much love, with a lovely wardrobe, a safe and comfy home and all the toys you can imagine. She's experienced most of her firsts with us. But the gift of learning is by far the greatest thing she will walk away with. Your organization has taken her from level D reading to J officially, but according to my sources I think she's at level N now. And if she keeps it up after she goes she will achieve greatness.

You make learning fun, she's now determined to reach for the stars. The Best Foot Forward program is incredible and such a blessing for R."
