

EMS RESUSCITATION SUMMIT

SAVING THE INJURED BRAIN

On-demand video series and podcast focused on prehospital management of traumatic brain injury

Watch each video at your convenience, and then submit your questions. The panel of speakers will answer your questions during a roundtable discussion podcast with special guest:

Joseph Gill, MD

Department of Emergency Medicine, UT Houston McGovern School of Medicine; Medical Director, Galena Park Fire Dept.; Associate Medical Director, Harris County ESD 48 EMS

Podcast Release: July 27

During this 4-part video series, we will discuss the critical role prehospital care providers play in maximizing long-term functional survival from traumatic brain injury (TBI). We will also review what the research says about prehospital TBI care.

A new 30-minute video will be released each Tuesday, June 22 - July 13, 2021:

- *Prehospital Interventions to Improve Outcomes from TBI* (Jun 22)
Ben Bobrow, MD Professor and Chair, Department of Emergency Medicine, UT Houston McGovern School of Medicine
- *Prehospital Management of TBI: A Provider Perspective* (Jun 29)
Joshua Smith Captain/Paramedic, Richland Fire and Emergency Services
- *TBI Care in the Emergency Department* (Jul 6)
Amber Rice, MD Assistant Professor of Emergency Medicine; Medical Director, Northwest Fire District
- *Surviving a TBI: One Woman's Journey* (Jul 13)
