

# PARIS SOF-CMC conference Fall 2022

## Program

**Thursday October 20, 2022**

09:00 – 10:30 Registration / Industrial exhibition

10:30 – 11:00 Opening lectures

11:00 – 12:30 Session 1

### Other bricks in the wall of SOF medical support

- Initial medical response to massive casualty incidents in the SOF environment. *Shackelford S*
- Prehospital blood transfusion in austere setting: from proof of concept to fine tuning. *Ausset S*
- Transformational change in combat casualty care research for the SOF. *Cap A*
- The UK point of view for the future of SOF medical support. *Hodgetts T*

*+ sign in for workshops 09:00 – 12:30*

12:30 – 14:00 Finger lunch / Industrial exhibition

14:00 – 16:00 Session 2A

### Airway management

- Intubation and positive pressure ventilation in patients with hemorrhagic shock. *Strangenes G*
- Surgical management of airway in SOF setting. *Morvan JB*

### Analgesia & sedation

- Analgesia and Sedation for Tactical Combat Casualty Care: TCCC Proposed Change 21-02. *Fisher A*
- War-wounded analgesia. *Corcostegui SP*
- Use of intranasal ketamine for prehospital analgesia in SOF: case series. *Dubecq C*

14:00 – 16:00 Session 2B

### Bleeding

- The future of blood transfusion in austere setting. *Martinaud C*
- Use of REBOA in the SOF setting. *Boddaert G*
- Evaluation of hemostatic capacities among commando candidates: Would their blood suit a hemorrhagic war-injured patient in case of blood donation on the battlefield? *Daniel Y*
- Fresh Whole Blood transfusion in Police Special Operations Teams: a perspective to reduce combat deaths in tactical austere environment in Brazil. *Braga da Silva T*

14:00 – 16:00 Workshops 1

16:00 – 16:45 Coffee break + Industrial exhibition

16:45 – 18:30 Session 3A

### Damage control resuscitation and surgery in SOF environment

- Deployment of the Surgical Life-saving Module (SLM) in 2017: lessons learned in setting up and training operational surgical units. *Malgras B*
- Ruck for surgery. *de Schoutheete JC*
- The French aeromedical special operations forces – damage control resuscitation and surgery team. *Cotte J*

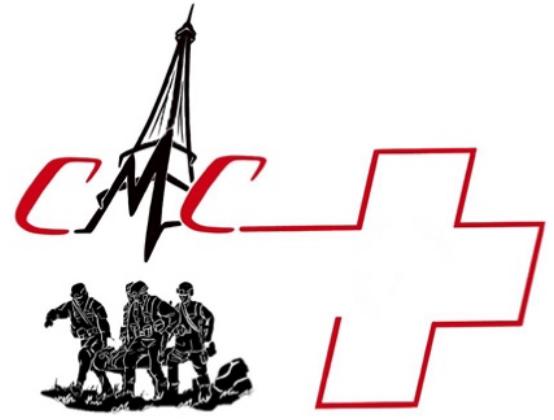

16:45 – 18:30 Session 3B

### In the air

- In flight damage control resuscitation. *AMS 3*
- In flight damage control surgery. *Hornez E*
- In flight critical care during strategical aeromedical evacuation for SOF casualties. *Boutonnet M*

16:45 – 18:30 Workshops

18:30 – 21:00 Ice-breaker - at the *École du Val-de-Grâce*

## Friday October 21, 2022

08:30 – 09:00 Coffee break + Industrial Exhibition

09:00 – 10:30 Session 4A

### Think & Do

- Human factors in critical situations. *Vacher A*
- Mental training to stressful situations. *Ramon F webconf*
- D-STRESS use of virtual reality to detect post-traumatic stress disorder. *Trousselard M*

09:00 – 10:30 Session 4B

### Special environments

- Heat stroke. *Aigle L*
- Medical support in (very) cold conditions. *Bauvent Y*
- Medical support of prolonged subaquatic operations. *Chery M*

09:00 – 10:30 Workshops

10:30 – 11:15 Coffee break + Industrial Exhibition

11:15 – 12:45 Session 5A

### SOF physical constraints

- Havresac syndrome. *Bécheau A*
- Medical support of high-altitude military parachuting. *Morand G webconf*
- Injuries in SOF airborne operations: a 5-years analysis. *Carbone N*
- Basic nutritional considerations for SOF operators. *AMS6*

11:15 – 12:45 Session 5B

### Threats and Hazards

- Cumulative blast exposure estimate model for SOF operators. *McEvoy C*
- Prehospital Burns. *De Mello W*
- The CBNR chain of survival and its mnemonic device "I AM THOR", a new cognitive tool to teach initial measures in undertaking a CBRN event on the battlefield. *Daniel Y*

11:15 – 12:45 Workshops

12:45 – 14:00 *Mange debout* / Industrial exhibition

14:00 – 15:30 Session 6A

### SOF combat casualties

- Treating Ukraine's wounded civilians, I saw horror and hope. *Attar S*
- Killed In Action (KIA): How Golden are 60 minutes? *Webster S*
- SOF casualties during counter-terrorism operations. *Travers S*

14:00 – 15:30 Session 6B

- Point-of-care ultrasound for triage in austere military environments. *Dubecq C*
- Prolonged Field Care Update *O'Kelly A*

14:00 – 15:30 Workshops

15:30 – 16:30 Meet the experts round tables / Industrial exhibition

16:30 – 17:00 Summary and conclusion

**17:00- 18:00 (and Saturday Oct 22,2022)**

**Free invitation to the *Musée de l'armée* for the exposition "30 ans des forces spéciales"**  
<https://www.musee-armee.fr/en/programme/exhibitions/detail/special-forces.html>
