

Hello, My Name is

M a r c e l l e

Kozocas

Marcelle first began supporting HERS by fundraising and participating in the annual Walk/Run in 2023, following her stage 4 breast cancer diagnosis in 2022.

After surgery in 2024, she turned to HERS for services and products as a patient. In 2025, after a layoff, she began volunteering and now proudly serves on staff.

While so much feels out of her control during a cancer diagnosis, being part of HERS has helped her reclaim some of that sense of control. She feels deeply grateful to give back and support others navigating their own breast cancer journeys.

Marcelle has been married to her husband, Joe, for 21 years and is the proud mom of two sons, ages 16 and 19. She's also a big baseball fan, whether scorekeeping for her son's high school team, cheering her boys on from the stands, or rooting for the San Francisco Giants.
