

Dear CRDHA Registrant,

Drs. Madathil and Allison from McGill University, Dr. Siqueira from the University of Saskatchewan, Drs. Glogauer and Quinonez from the University of Toronto and Dr. McNally from Dalhousie University invite you to participate in a study to estimate the risk of COVID-19 among Canadian dental hygienists.

**The study consists of completing an online questionnaire every 4 weeks for a period of 12 months.**

This study has received ethics approval from the Faculty of Medicine Institutional Review Board at McGill University as well as the University of Saskatchewan. Data collected in the study will be analyzed every two months and the results provided to study participants as well as dental hygiene regulatory authorities and public health authorities to aid them in their decision-making and guidance to dental hygienists and the public. The results will also be submitted for scientific publication and used for educational purposes. However, no individual data will be shared with anyone beyond the research team. We will not share any personal or individual data with any organization.

There are no known risks associated with this study, and all information will be stored on secure servers accessible only by the Principal Investigators (Dr. Madathil, Dr. Allison and Dr. Glogauer). Participation is voluntary, and participants can choose to stop at any time without penalty.

To participate, please click the link below:
