Success Stories: Examples of Property Donated

- Nueces County ESD #4
 - Zoll Auto Pulse (Automatic CPR Device)
 - Nueces County ESD #4 said, “Our 911 EMS service covers over 200 square miles of rural Nueces County. The ambulance is staffed 24/7 with two EMS personal. When the ambulance service gets a call requiring CPR; only being staffed with two personnel of which one person has to drive the ambulance, up to 35 miles to a definitive chest pain hospital, patient management is challenging. The Zoll Autopulse that was purchased through the Surplus is a **LIFE SAVER**. The Autopulse is an automated CPR device. Once the patient is placed on the Autopulse the patients receive high-quality uninterrupted compression even during patient movement to and from the ambulance, and transport. This free up the one medic in the back of the ambulance to concentrate on airway management and medications. With this purchase through the surplus program we are saving lives. **PRICELESS**”

Success Stories: Examples of Property Donated

- Milburn-Price Culture Museum
 - 1973 Military Scope,
 - TFC Service Charge = \$120

- Los Fresno Emergency Services

- Humvee

- TFC Service Charge = \$4,500
 - Orig. Acquisition Cost = \$41,061

Success Stories: Examples of Property Donated

- Temple Museum of Modern Warfare

- Dave DeMorrow, the museum's chairman, told us the following background story:
 - "In the mid 1980s, the US Army was going from one paint pattern to another (4 to 3 colors), and was trying to come up with a proper color for the desert. There was a test unit in New Mexico that was testing the ROLAND ADA, system for Europe, and possible sales to the US ARMY. This battalion 5/200th ADA was ordered to test out desert pink. The UK had been using the pink in the deserts around the world from WWI to today (SAS Pink Panther Land Rovers). Comes to find out that desert pink is harder to see at long ranges than desert tan. For 1-2 years many of the vehicles in the battalion were painted pink. When I got this vehicle and took off the sand areas guess what, under it was pink....turns out that this is one of the original test vehicles. I have replicated the color the best I can with the markings and unit numbers (next)."

Success Stories: Examples of Property Donated

- Vega ISD
- Tires, Press Brake

Vega ISD Ag Department has been very successful at their ag mechanics competitions. Jay Newton, Vega ISD Ag teacher, provided us with the following photos showing the Senior Ag Mechanics team's win at the San Antonio Rodeo & Stock Show. The senior team - Morgan Ellis, Rhett Blasingame, Ralee McKarns, and Kaylei Richardson - won Grand Champion with their drag scraper. The team started working on the project September 2018, and were selected as Grand Champion out of 500 entries. The wheels and tires used for the scraper, as well as equipment used to build the scraper, were from FSP.

Congratulations to Vega ISD on this impressive win!!
