

## Join IABTI Region II, as we train in OKLAHOMA CITY!!!

Please join us for the **2019 Region II In Service Training and Product Expo, October 29-31!** We will have case studies of recent events in CONUS and OCONUS from the Local, State, Federal and Military personnel who carried out the operations. We will have a lot of opportunity for hands on training and product demos involving some of our great exhibitors. We will also have a full day at the OSU-CENFEX Range working with oil field tools, UAV's and more!

On Wednesday night we will have our annual banquet and awards ceremony at the world famous **Cattlemen's Steak House** in the **Historic OKC Stockyards!** Politicians (to include seated and former Presidents) and celebrities from all walks of life have come to Oklahoma City just to dine at this legendary establishment.

<https://cattlemensrestaurant.com/wall-of-fame>

Please support your Region with your attendance and participation. Come see old friends, make new connections, get exposure to new products that can improve your team, and learn from the hands on training and case studies! OH....and did I mention the best steaks, chicken and catfish in the Great State of Oklahoma?!

Hotel and nearby Training Site(s) are near several great restaurants and night spots (see maps on page 4). We will provide shuttles from the hotel to the training sites and ranges for those who need it.

"I HOPE TO SEE YOU THERE!"

- *Jason Hodes, IABTI Region II Director*

**Reccomendations in the Area from Jason:**

**1800 S. Meridian - <http://thefrostedmugokc.com/>**

**1732 S. Meridian - <http://www.oksanmarcos.com/>**

**2037 S. Meridian - <https://shortysmalls.com/>**

**OSU-CENFEX** has a 320-acre range facility located near Pawnee, Oklahoma where we will be training on Day 3 (Thursday). Transportation will be provided. The new, multidisciplinary range is set up for explosives testing, training and research. The range is an ongoing project and new areas are being developed to provide the most current and relevant real-world scenario based training environment.

**Safety Information:** All range and laboratory operations conform to FBI Hazardous Devices School safety protocols, to include requirements for non-static clothing and personal protective equipment (PPE). Emergency medical personal are present during all explosive training exercises.
