IMPORTANT TIPS ON BUYING A USED CAR

Buying a car is complicated and you can make very expensive mistakes. You need to take important steps to make sure you get a car that is in good condition, that will pass inspection, and that you can register.

Unless there is a written warranty, used cars are sold "AS IS" so you cannot return for a refund.

You should not rely on the seller to tell you about the condition of the car. Pay for an independent mechanic, who has no connection to the seller, to inspect the car and make sure it is in good condition and that it will pass state inspection, so that you will be able to register and legally drive it.
