

## DCLSA Guidelines Updated 6.1.20

*It is each member's decision whether to visit or use any of the club's outdoor areas including docks. If you choose to do so, we ask you to familiarize yourself with and abide by the following (and ensure your family and guests do the same):*

Who should come,  
what to bring?

1. Please do not come to DCLSA (Deep Creek Yacht Club at Turkey Neck) unless you are healthy with no symptoms of COVID-19, have been healthy and symptom free for the past two weeks, and have not been exposed to anyone with COVID-19 symptoms in the past two weeks. Come to the Club at your own risk. Members assume responsibility and liability for their own health, must take all necessary precautions and visit DCLSA facilities and property at their own risk.
2. Bring your own personal protective equipment; face mask, gloves (if desired), and hand sanitizer.
3. Bring plenty of water for your own use. The mug room is closed and the bottled water dispenser will not be available. Cups or bottles of water will be available when food is being served and before and after races.
4. Bring your own radio. The club VHF radio will not be accessible. So you will need your own handheld radio to receive communication about the racing activity.

Spaces,  
Physical Distancing,  
Mask Guidelines

5. Our club outdoor areas are available to members. Seating has been arranged to foster physical distancing as per Maryland's updated dining guidelines 5.27.29. Please DO NOT move any tables or chairs. Current Maryland dining guidelines allow for up to 6 non-cohabitating individuals to sit at the same table. For evening events, you will be assigned a table with your family members or those you choose in your reservation form. Facial coverings are not required while seated for dining. If you need to wait in line for take out, or beverages, or your table has been called to come and get your plate at an evening event, please stand 6 feet from those who do not live with you, and wear a mask when space is limited to less than 6 feet between those around you.
6. The building is required to remain closed, in compliance with the Governor's directives and guidance. Members must not enter the mug room or fireplace room or kitchen. Do not use the indoor stairs or enter the downstairs indoor areas. Indoor areas are off limits, even in inclement weather, so please plan accordingly.
7. As per Maryland Guidelines updated 5.27.20, where space allows, please follow a six-foot physical distancing policy (from those not living in your household) and continue to wear a mask when in closer proximity scenarios such as when passing someone on the dock, or walking between tables on the pavilion.
8. The upper level pavilion level restrooms are open. One person in each restroom at a time (unless attending to your young child). The doors now have locks. Please wear a mask while in the restroom or waiting to enter. You are responsible for staying safe while using the restrooms. Though the club will provide frequent cleaning of the restrooms (particularly high touch surfaces) you must take responsibility for your own health and safety. Please use the hand sanitizer or disinfecting wipes available for your use to clean restroom surfaces before and after you touch them.

Dinghy

9. The dinghy will be available for use by staff and/or members to get boats to and from moorings. Please limit to five people at a time (including the dinghy driver), and wear mask at all times while in the dinghy. Please wipe high touch areas (such as motor throttle, starter, and gearshift) with disinfecting wipes that will be provided in the dinghy and dispose of them properly.

AED

10. The first aid kit and AED will remain in the main entrance way and are clearly identified. The lake side main door will be unlocked during events for emergency access to these items. Again, please do not enter the interior of the clubhouse unless it is an emergency.

Shared  
Responsibilities

11. Parents are responsible for their children and must ensure that their children follow these guidelines.
12. Members are responsible for their guests and must ensure that any guests follow these guidelines.
13. Please do everything you can to keep yourselves, your family and guests, our DCLSA membership, and our community safe. Safety starts with each member. We appreciate your willingness to follow these health and safety procedures for the good of all members.
14. These guidelines remain in effect except as modified and reissued by the board. We look forward to continued revisions to the State of Maryland guidelines, which will allow the club to gradually return to normal operations.
