Summit mission

A premier national summit on substance use disorders bringing together the White House Office of National Drug Control Policy, with front-line providers, scientists, and funding agencies to fight stigma associated with substance use and build innovative strategies that will create best practices for Black communities to heal.

Summit objectives

- Provide clinical and peer provider solutions to eliminate barriers to treatment and recovery while navigating the legal system
- Build capacity for faith-based communities to connect to multiple pathways to recovery including life saving medications while navigating racial inequities in healthcare
- Understand theories about the brain's reward circuit, dopamine, and substance use disorders
- Recognize the link between childhood adversity and brain structure
- Reduce mental health stigma among health care providers and recovery support services
- Master resource building in funding, advocacy, and coalitions to sustain and enhance frontline services
- Explore how to work with youth in various settings

Intended audience: Front line service providers, recovery support services, scientists, federal agencies, funders

*Continuing Education Credits Available for Attendees through American Academy of Addiction Psychiatry**

Opioid Response Network

*In support of improving patient care, the American Academy of Addiction Psychiatry is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Funding for this initiative was made possible (in part) by grant no. 1H79TI085588 from SAMHSA. The views expressed in written conference materials or publications and by speakers and moderators do not necessarily reflect the official policies of the Department of Health and Human Services; nor does mention of trade names, commercial practices, or organizations imply endorsement by the U.S. Government.
