

### **Grant Opportunity: Helides Education Fund**

The Ernest Michael Helides and Evelyn Ponticos Helides Education Fund supports STEM (Science, Technology, Engineering and Math) educational programs for students from Southeastern Massachusetts.

In recognition of the unprecedented challenges and unanticipated opportunities created by the COVID-19 pandemic, the Foundation will accept requests to support any aspect of STEM programming or for operational support to organizations that typically offer STEM programs.

**APPLY NOW  
DEADLINE  
GRANT TOTAL  
ANNOUNCEMENT  
QUESTIONS**

There is a short [online application](#)  
Friday, November 20, 2020  
There is a total of \$38,000 to distribute  
Grants will be announced mid-December  
Dara Gannon  
Director of Programs and Donor Services

**PLEASE NOTE**

We have updated our grant software. You will need to create an account to apply for this and other grants that become available. You will only have to create it once to be in our system. Each organization can only have one account. The person creating the account should be the contact person for the organization's proposals. Once you create an account, you will see **The Helides Education Fund** on the **APPLY** page.

**Grant Opportunity: McGowan Fund for Animals**

The Thomas C. McGowan Fund for Animals was established through a gift from the late Thomas McGowan. Mr. McGowan had a passion for animals and wanted to ensure that there would be funding on Cape Cod and the Islands to support their welfare long after his death. In establishing the fund, Mr. McGowan focused on animal protection and welfare with a preference for the following: medical treatment; "no-kill" shelters; spaying/neutering of domestic animals; prevention of cruelty to animals; education and building public awareness on issues affecting animals and their welfare.
