

Parents,

Below you will find the email that was sent to the students. Also, attached is the weekly schedule and sports schedule for the week. Please look it over and make sure we are all on the same page.

We had a great start to the school year and worked out a lot of things as the week went on. We will continue to tweak our processes as we try to navigate this new way of learning. One area I ask for your help in is to temperature and symptom check your child at home each morning. We will continue to check temperatures as students arrive.

Our virtue for this month is flexibility and I want to thank you for your flexibility at the start of this school year. The students did a great job following procedures and teachers did a great job teaching to students in the classroom and remotely. I reminded students of some areas we need to see improvement on when learning at home. Please see the list in the student email and reinforce with your child.

Enjoy the rest of your Labor Day Weekend!

Go Panthers!

Ryan Wikel

Start of Student Email:

Students,

Welcome to week #2 of the school year. Attached you will find the weekly schedule along with the sports schedule for the week. Good luck to all of our athletes competing this week. If you are on a sports team and have equipment at school with you, there are designated areas in the Den to drop off before school. This will eliminate having to carry the equipment around with you. We are also going to start issuing lockers as part of our phased in start. There will be some procedural items that your teachers will address once lockers have been assigned.

I wanted to send a few reminders about learning at home as we had a couple issues this week.

Remote Learning Reminders:

1. Find a suitable place to participate daily (laying in bed is not an option)
2. Your camera must be on
3. Follow your schedule and use restroom in between classes
4. Remove all distractions during the school day (Cell Phones, video games, television)
5. Dress code must be followed including shaving and haircuts.

6. If you have connection issues, call the office and let us know.

Thank you for a great start and I look forward to getting even better this week. Keep up the good work and enjoy the rest of your Labor Day weekend!
