

# National Pollutant Discharge Elimination System (NPDES) Construction Storm Water 101 Webinar

March 25, 2021 at 10:00 a.m. EST

**Wesley Sluga, DSW  
Environmental Specialist**

Do you need to better understand the Federal National Pollutant Discharge Elimination System (NPDES) as it relates to Ohio's construction storm water requirements and construction general permit? This webinar will provide an overview of these requirements. Topics will include permit coverage, Notice of Intent and Notice of Termination applications, basic storm water pollution prevention plans, and both active and post-construction requirements. Join us on March 25 to help you better understand NPDES and how it relates directly to construction operation.

After registering, you will receive a confirmation email with a link to join the session. Continuing Education Units (CEU) will also be available for this webinar.
