

› Integrated Risk Management for Ohio Public Entities

York and CareWorksComp invite you to attend a free seminar on Integrated Risk Management. This interactive seminar will teach the foundation of integrated risk management in property and casualty, workers' compensation, unemployment compensation and human resources. Our experienced panel will illustrate how public entity claims often intersect with each other. You will also learn how to identify, assess, plan, monitor and measure these exposures to reduce risk.

Who should attend?

Administrators, managers and directors in the areas of human resources, finance and safety.
