Local Leaders Webinar Series

Managing Contaminated Sites

June 17, 2021 at 10:00 a.m. EST

Roxanne Anderson
DERR

It's important that local leaders are aware of how contaminated sites are regulated to keep residents safe and what redevelopment opportunities exist. This webinar will explain the basics of environmental clean-up regulations, will provide an overview of liability, due care, land use restrictions, and will explain Brownfield funding assistance that is available.

Ohio EPA's Division of Environmental and Financial Assistance will be holding its sixth installment of In Your Community (IYC) series of webinars for 2021. Each webinar will focus on environmental issues that have an impact at the local level - from how Ohio EPA regulates sources of air pollution, waste management, wastewater and stormwater discharges to ways your community can promote environmental stewardship and improve the environment.
