If you're struggling to keep your wastewater treatment plant in compliance, rest assured that it isn't rocket science. Let our experts teach you cheap, easy, and effective process control tools to diagnose treatment problems and then monitor the system to keep it in compliance.

Join Ohio EPA's Division of Environmental and Financial Assistance on April 15 to meet and hear from our Compliance Assistance Unit staff who will help you better understand how to operate your facility more efficiently. After registering, you will receive a confirmation email with a link to join the session.
