

Ohio EPA's Division of Environmental and Financial Assistance will be holding its third installment of a new series of webinars focused on environmental issues that have an impact at the local level. These webinars will occur throughout the year and cover a wide range of topics from how Ohio EPA regulates sources of air pollution, waste management, wastewater and storm water discharges to include different ways your community can promote environmental stewardship and improve the environment in your local area. For more information, visit our "In Your Community" web page at [https://epa.ohio.gov/community\\_webinar](https://epa.ohio.gov/community_webinar). Below is a description of our July webinar.

### **Managing Contaminated Sites in Your Community – July 16, 2020 (10 am – 11 am)**

*Presenter: Lisa Shook & Dan Tjoelker, Division of Environmental Response and Revitalization (DERR)*

It's important that local leaders are aware of how contaminated sites are regulated to keep residents safe and what redevelopment opportunities exist. This webinar will explain the basics of environmental clean-up regulations, will provide an overview of liability, due care, land and resource use restrictions, and will explain Brownfield funding and other financial assistance available. This webinar may be eligible for CEU Credits. Please review the links below.
