

BLOOD DRIVE with D28

Grace Lombardo

Just six years after her first breast cancer diagnosis, Grace Lombardo was diagnosed with breast cancer yet again in December of 2021. She works as a teacher's assistant in the special education department for District 28. During a routine oncologist screening, a lump was found on top of her mastectomy. Grace has undergone aggressive chemotherapy and two surgeries since her diagnosis. Her blood fluctuates and her hemoglobin levels are low, and unlike the first diagnosis, Grace fears she will need blood products this time. Although Grace is currently undergoing chemotherapy, she continues to work and wants to raise awareness of her situation and the importance of blood donation. **Please donate blood!**

Kelly Sculles

Kelly Sculles, Director of Student Services for District 28 was diagnosed with stage 4 rectal cancer in December of 2013 that had metastasized to her liver. Kelly underwent extensive treatment during this time, including chemotherapy, oral chemotherapy, and radiation. Following her diagnosis, Kelly had a third of her liver removed and blood transfusions followed. As a result, Kelly had little energy, but blood products provided her with a new lease on life. Kelly became cancer-free in December 2014, after a challenging year. When she was diagnosed, she learned how important blood donation was and what a positive impact it has on recovery. Through her story, Kelly hopes to encourage others. **Please donate blood!**

Northbrook District 28 Blood Drive In honor of Kelly and Grace

Saturday, Sept. 10
9 a.m. - 3 p.m.
Greenbriar School, Small Gym
2195 Cherry Lane, Northbrook
