

# CALL FOR PAPERS: *Frontiers In Public Health*

## Safeguarding Youth from Agricultural Injury and Illness: International Experiences

Editors are seeking perspectives and exploring strategies from multiple countries that have used the Socio-Ecological Model or other relevant frameworks to safeguard youth in agricultural settings from agriculture-related injury and illness. Topics relevant to children and young adults living in, working on

and/or visiting agricultural settings, addressing childhood ages from "in vitro" to young adulthood, will be considered.

### Sub-themes may include, but are not limited to:

- Evidence-based strategies for reducing agricultural injuries/fatalities/illness
- Interventions involving agents of influence, e.g. agribusiness, childcare providers
- Public policy approaches that protect youth from occupational hazards
- Success stories in reaching underserved, unique populations
- Interventions targeting very hazardous youth work, e.g. tractors, utility vehicles
- Impact of animal rights activism and rural crime on youth
- Mental well-being of youth living and working in agricultural settings
- COVID-19 experiences and recommendations for future pandemic responses

### Categories of Papers Include:

- a) original research
- b) systematic review
- c) policy/protocol review
- d) brief research report
- e) case study
- f) commentary
- g) data report

SCAN ME

*Frontiers in Public Health* is a multidisciplinary open-access journal which publishes rigorously peer-reviewed research and is at the forefront of disseminating and communicating scientific knowledge and impactful discoveries to researchers, academics, clinicians, policy makers and the public worldwide. Impact Factor: 3.709.
