

2021 Soil Health Symposium

March 11-12

This year's Soil Health Symposium will bring together growers, land and vineyard managers, scientists, agency representatives, and others to provide an overview of soil health in our region. Topics will include potential climate change impacts and solutions, cutting-edge practices, and the latest data from the field.

Day 1: Climate Change and Soil Health

Day 2: Shop Talk- Soil Health in the Field

Speakers:

- Dr. Greg Jones (Linfield University)
- Greg Pennyroyal (Wilson Creek Winery)
- Lisa Micheli (Pepperwood)
- Kelly Mulville (Paicines Ranch)
- Dr. Cristina Lazcano (UC Davis)

Panel discussions will feature additional growers and industry professionals

This workshop will be run through Zoom. Registration is free and open to the public.
