Arthur Holm: Sustainable communication technology for meeting, conference, and reception spaces. Customizable motorized or manually adjustable monitors, microphone lift systems, dynamic speakers, motorized cameras, multimedia kiosks, and integrated AV solutions for furniture and walls

Ashly Audio: Large selection of amplifiers, both analog and Dante, as well as with DSP or without. Control system and components for complete audio solutions

Aveo Systems: Cloud based control system. Simple to set up, intuitive interface, allows for remote management. Affordable with no compromise

AV ProEdge: Video infrastructure products including HDMI extenders, video switchers, videowall processors, digital amplifiers and audio tools

Big Dog Power: Provides power and surge protection, remote control, smart integration, rack temperature management, and removable surge protection modules. Manage everything from the MavBase app

Bullet Train: Ultra High Bandwidth HDMI Cables 4K (18G) Copper, 10K (48G) Active Optical Fiber Cables

Clockaudio USA: Professional microphones including boundary, ceiling mount, table mount, Dante microphones and custom microphones

Digital Projection: Emmy ® Award winning manufacturer for ultra-high-performance 3-chip & single-chip DLP® projectors, and Radiance LED – direct-view, fine-pitch LED displays

Ethereal: Manufacturer of reputable HDMI® products (diagnostics, long-run cables, etc.), installation hardware, TV mounts, in-wall products, and security surveillance systems

Focusrite: Audio interfaces, mic preamps, and studio equipment for both home and professional studios

Rullo Technology

Heckler: Providing AV carts, wall mounts, credenzas, iPad stands & mounts, and camera mounts

Innovox: American designed and built speaker systems for boardrooms, business conference rooms, churches, halls, theaters & more. Intelligibility in architecturally pleasing formats

Jetbuilt: The easy-to-use platform for AV, IT & Security professionals. Consolidate and simplify pricing, proposals, installation tracking, and funnel management. Native integration with Quickbooks online

Linea Research: UK-based company with Switched-Mode Power Supplies (SMPS), sonically transparent Class D Power Amplifiers, Digital Signal Processing (DSP), Networking, Software, and Design

Major Custom Cable: American manufacturer building Ethernet, Pro A/V, and Fiber singlemode, multimode, OM3, OM4, OM5, MTP/MPO – from patch cables to multifiber assemblies. MCC is a CORNING Gold assembly house

MSE Audio: Soundtube speakers for paging and music including Ceiling Mount, Pendant, Surface Mount, Dante IP Speakers. Subsidiaries include: Phase Tech, Induction Dynamics, Dart Brands, and Rockustics

Murideo: Reliable calibration, testing and troubleshooting tools built for the commercial and residential AV integrator

Mxnet: AV over IP ecosystem includes Encoders, Decoders, Control, and Network Switches optimized for Video over IP

Netgear: AV over IP Network Switches, Business Wifi Networks, Network Storage, Routers, Mobile Wifi Networks

NETIO: Bridging the gap between hardware and software and offering both. With customers in mind NETIO offers a seamless integration to any imaginable system with Open APIs wide range of protocols

Rullo Technology

Optimal Audio: A “one stop shop” solution of controllers, amplifiers and loudspeakers - operated seamlessly with configuration software, WebApp

Pixelhue: Professional-grade video processing hardware — from compact switchers and splitters to high-resolution scalers, extenders, and LED controllers — designed for demanding Pro AV environments

PTZOptics and HuddleCam: Pan, Tilt and Zoom and Auto-Tracking Cameras for conferencing, live streaming and live video production. HuddleCam for smaller rooms and personal webcams

RTI: A comprehensive suite of products, including control processors, touch panels, remotes, and A/V distribution systems, coupled with RTI Integration Designer® software integrators can craft personalized and intuitive control experiences

Seenspire: Always fresh and compelling content for digital signage and video walls. A video streaming service for public displays. Include local data, social media, visual art, trivia, etc. All customizable in a user-friendly interface

Stewart Audio: Compact Analog and Dante Amplifiers, PoE Amplifiers, Plenum Amplifiers, Compact DSP’s

Symetrix: A leader in high-performance audio hardware, software, and AV control systems. Enterprise open architecture DSP’s, networked endpoints and control panels

Technologie Optic.ca: 100% TAA-Compliant Canadian manufacturer of optical communication components for networking and data center applications. Transceivers, Direct Attach Cables (DAC, Twinax, AOC), Optical Patch Cables, etc. Certified compatibility with 20+ brands including NETGEAR AV

TSI Touch: High-impact interactive and protective solutions designed to engage users and delight audiences. Touch screen overlays and protective solutions for Samsung, Sony, LG and video walls

Turtle AV: Proudly Australian and eco-conscious manufacturers of Dolby Atmos Dante encoders, video walls, multiviewers, Dante bridges, microphone preamps, converters, and adapters

RULLO TECHNOLOGY

XYTE.ai: Remote monitoring & management (RMM), AV/UC device management, AV IT operations, remote troubleshooting & device control, system integrator (SI) tools, MSP enablement, ITSM integrations

Yamaha UC: Enterprise grade microphone systems, conference phones, and video sound bars for natural, clear conversation in every meeting space. Solutions include analog and Dante options, USB plug & play, and wireless conferencing

42 Digital Signage: Cloud-based digital signage software platform designed to manage content across any screen, location, and hardware, with full white-label capabilities for resellers and integrators
