

# An innovative line of products designed to meet your needs!

Each 2.5 gallon box makes 320 quarts of ready-to-use product!

The S-Pack is a convenient, easy to use system that provides you with all of the tools necessary to get the job done. Your customer can even control the dilution ratio when necessary! We have gone one step further and made getting started easy by creating the S-Pack Starter Kit. This space saving unit assembles in minutes without any tools!

Each box contains a 2.5 gallon bag-in-the-box of ultra concentrate with a built-in, no-spill dispensing nozzle. There is also a 32 oz. graduated bottle with a 9 1/4" trigger sprayer which are both conveniently located in a hidden compartment in the back of the box. The quart bottle comes pre-labeled with ready-to-use dilutions.

**\$179.99 PER KIT**

**\$49.99 PER INDIVIDUAL BOX**

**\*That's .14 to .16 cents per ready to use quart\***

**\*Measure 1oz of Ultra Concentrate into the quart bottle and just add water!!!**
