

Eurofins SAFER@WORK™

Limit the impact of COVID-19 on your residents, staff and business

✓ **Maintain and monitor facility hygiene**

Sentinel testing such as surface monitoring, wastewater testing and pooling provide an early warning indicator of facility infection

✓ **Proactively manage resident health**

Quickly react to limit the spread of infection with accessibility to medical personnel and rapid COVID-19 PCR testing

✓ **Protect your workforce and your bottomline**

Reinforce workforce retention and demonstrate due diligence for your stakeholders with the Eurofins VERIFIED seal

48 Hour Turnaround – Nationwide network of laboratories and medical partners

"Working with Eurofins was easier and faster than any of our experiences with other laboratories. We were able to validate our processes demonstrating to our market that we are proactive in the fight against the novel coronavirus; communicate with our staff that our training is successful and their work-related risk to infection is minimized; and reduce our risk against litigation now that we have evidence our program is successful."

- Director of Quality Improvement, Care Facility
