

Trauma-Informed Care

TraumaInformedCare.com

Developed in partnership with

This nine-module online course is designed to educate nursing home providers and nurses about how to implement trauma-informed care in their facilities with staff who are appropriately trained and competent to care for residents at risk for retraumatization.

It contains simple foundational steps and practical recommendations that can help improve resident outcomes.

- Build awareness of trauma-informed care among staff
- Learn how to screen and assess for trauma
- Incorporate trauma-informed care into the discharge process

Questions? E-mail educate@ahcancal.org

The program is approved for **5.75 NAB CEs** for administrators and **5.10 AANC continuing education hours** for nurses.
