

## **Testing Resources**

**DML and Aeon.** Both labs are CLIA accredited and Maryland certified, and both build on experience and a proven track record of delivering reliable results quickly; turn-around time for results is just 24 to 48 hours. Additional tests, such as those to identify COVID-19 antibodies, are also available. Working to keep the price per test at the barest minimum without sacrificing quality or results time, Diamond and Aeon labs are offering a discounted price of \$75 per test to those facilities who mention LifeSpan, HFAM, or LeadingAge Maryland. For more information on how your facility can utilize the labs under this partnership, please contact [apbeacon@lifespan-network.org](mailto:apbeacon@lifespan-network.org).

**Capital Diagnostics.** Located in Laurel, MD, Capital Diagnostics is a CLIA certified high-complexity lab that is currently doing PCR COVID testing. They can process nasal and oral samples and have plenty of testing capacity. Capital Diagnostics can provide results in 24 hours and can provide same day pick up which allows same-day results in urgent situations. Patients can register at an online portal and get results electronically. Please email [rbhatnagar@capitaltox.com](mailto:rbhatnagar@capitaltox.com) for more information.

**University of Maryland Pathology Associates (UMPA).** The State announced that it has negotiated a price of \$40 per specimen through UMPA. If interested, contact the University of Maryland at [MDTESTING@som.umaryland.edu](mailto:MDTESTING@som.umaryland.edu), where you will receive an intake form to submit for review or 1-667-214-2110.

**Eurofins.** To learn more, please see [this advance copy of an ad](#) that is set to appear in Provider Magazine. For more information and if you have questions, contact Karen Gerwitz, Business Development Director, Eurofins at 716-206-9874 or [karengerwitz@eurofinsus.com](mailto:karengerwitz@eurofinsus.com).

**AMS Onsite.** Please see our [press release on HFAM Associate Member AMS Onsite](#) for key messages on testing and workforce. For more information and contact information, [click here](#).

**First Call Medical Center.** Please contact Dr. Ron Elfenbein to discuss the testing process and figure out which option works best for your center. Dr. Elfenbein can be reached via email at [elfenber@yahoo.com](mailto:elfenber@yahoo.com) or via phone at 410-507-9698 (please leave a message if no answer).

**Diamond Medical Labs,** located in Owings Mills, has the capacity to do in-residence test collection for seniors during the COVID-19 outbreak so that they do not have to go out. In addition, Diamond Labs is now offering staff testing, as well as patient testing, with a 24 hours turnaround. Contact Andy Diamond at [andy@diamondmedicallabs.com](mailto:andy@diamondmedicallabs.com) or 443-992-2782 if there is demand at your center or if you would like additional information.

**Cian Diagnostics.** [Click here](#) for more information.

**MAXIMUS.** If you are interested in setting up a coronavirus testing program, please contact Leonard Lucchi [llucchi@omng.com](mailto:llucchi@omng.com) or 410-280-2203.

**Avellino.** In March of this year, the FDA granted Avellino Lab USA, Inc. an Emergency Use Authorization (EUA) for the AvellinoCoV2 molecular test. If you are looking to perform COVID-19 testing for your employees, staff, patients, or more, please read [this message](#) from Chief Sales and Marketing Officer, Eric Bernabei. In addition, please see [fact sheet one](#) and [fact sheet two](#).
