

Remdesivir Distribution
MDH COVID-19 Therapeutics, January 12, 2022

Key facts

1. On December 30, 2021, the [National Institutes of Health \(NIH\) released COVID-19 Treatment Guidelines Panel's Statement](#) on therapies for high-risk, non-hospitalized patients with mild to moderate COVID-19.
2. Maryland is distributing 671 courses of Remdesivir to institutional pharmacies serving residents in skilled nursing facilities (SNFs).
3. The evidence to support remdesivir therapy comes from the recently published [PINETREE study](#) showing 87% efficacy compared to placebo against the endpoint of hospitalization and death.
4. Remdesivir is currently approved by the FDA for use in hospitalized individuals, and outpatient treatment would be an off-label indication. Remdesivir is administered 200 mg IV on day 1, followed by remdesivir 100 mg IV daily on days 2 and 3, initiated as soon as possible and within 7 days of symptom onset in those aged ≥ 12 years and weighing ≥ 40 kg.
5. CMS created HCPCS code J0248 for the Veklury (remdesivir) antiviral medication when administered in outpatient setting.
