Celebrating Breast Cancer Survivors

The Brookland Foundation is a community-based non-profit organization established in 1994 to extend outreach to individuals and families throughout the Midlands of South Carolina. Our mission is to improve the lives of people by developing and promoting efforts to enhance their spiritual, emotional, physical, social, and economic well-being.

The Color Pink Breast Cancer Awareness Gala, sponsored by the Brookland Foundation's Health and Wellness Program, supports breast cancer awareness efforts, emphasizing prevention and early detection. According to the American Cancer Society, breast cancer is the most commonly diagnosed cancer and the second leading cause of cancer death among women in the United States. Funds raised provide scholarships for breast cancer screenings (mammograms) for the uninsured and under-insured, provide education and awareness to the general public on breast cancer, and help to advance the "Survivor's Circle" Breast Cancer Support Group.

This year's event will be virtual due to the uncertainties of the Covid-19. As we continue to navigate the global pandemic, the safety of guests, sponsors, attendees, and staff is our highest priority. Although COVID-19 presents its challenges, we will not be deterred in our commitment to recognize, support, and showcase our breast cancer survivors while educating our community on the importance of screening and prevention.

This year, we will highlight 10 beautiful breast cancer survivors and donations will be encouraged in honor of each survivor. Survivors will be featured in an online presentation where they will share their journey to survivorship.

In sharing their journey, survivors aim to encourage family and friends to participate by providing financial support to The Color Pink and the Brookland Foundation. The top three fundraisers will be acknowledged and honored with a special presentation.

We invite you to become a major part of this event by participating as an event donor. Would you please take a moment to review the enclosed information detailing how we can partner in the fight against breast cancer? Your time and consideration are greatly appreciated.
