“Forever We SPARKLE! Forever We STANT!”

My Name is Adria Felder and this is my story:

I found a small nodule in my right breast. I didn't panic because my yearly pap and mammogram were scheduled for just 3 days later. When I arrived I advised them of what I felt. The mammographer took images and instantly said it was a cyst and not cancer.

I got dressed and went back to my OBGYN and he read the result, no cancer just a cyst. He then asked me, "Are you experiencing any pain or discomfort?". I replied, " No". He said, “well if it starts to grow or cause you pain we will go in and drain it or remove the lump”.

I simply told him, "No you won't, send me to get a 3D mammogram”. He looked as though to say, well the report says... so I told him “I know what the report says, but I am telling you I want a 3D mammogram’.

Two days later, I went in for the 3D mammogram but they couldn't feel the lump. I took the mammographer’s hand and told her to mash down. She jumped and said, “OMG! How did you find this small knot?”. I told her “GOD!!!”

The biopsy was the next day and I was diagnosed with Stage 1 HER2+ Breast Cancer. One of the most aggressive types of Breast Cancer.

My journey began and changed my life FOR the better. Now, I’m Cancer free and healthy!

See, God promised me an abundance of life, good life and he is revealing it to me. I stood on his word and every single prayer I prayed he answered them and MORE.

Nobody but God allowed me to push back. Nobody but God allowed me to find a tumor that was 19MM (size of a penny) in my breast. Nobody but God allowed my healthcare staff to listen to me and take heed to my care and concern.

God gets all the glory and praise.

Psalm 91 – He that dwelleth in the secret place of the most High shall abide under the shadow of the Almighty. ²I will say of the LORD, He is my refuge and my fortress: my God; in him will I trust.
