# AI for Science Course

## *Essential Skills for Your Future*

**Launching Spring 2026: A New 3-Credit Course for Science Undergraduate Students**

Get ready to master the essential tool of the future. **AI for Science (IDS 4934)** will be offered to prepare you for a world where AI proficiency is a core skill.

- **Prerequisites:** None! Designed for students with no prior programming experience.
- **Delivery:** In-person.

### **Course Focus: Conceptual Mastery, Not Complex Math**

This isn't a coding class—it's about making AI work for you!

### **The Core Takeaway: AI is a Tool, Not a Genius**

You'll gain critical thinking skills to use AI responsibly.

### **By the End of the Course, You Will Be Able To:**

- **Choose the Right Tool:** Identify and select the best AI application for any task.
- **Prompt Like a Pro:** Structure prompts effectively to reduce errors and get accurate, relevant results.
- **Critically Evaluate:** Recognize unreliable AI outputs and validate information like a seasoned researcher.
- **Boost Efficiency:** Confidently use AI to streamline academic tasks and prepare for future careers.

Get ready to make AI your indispensable research and career assistant!
