

CMIT Solutions of Houston Willowbrook Achieves National Honor

Nation's Leading Information Technology Company Presents Local Entrepreneur with its Prestigious "Franchisee of the Month" Award

HOUSTON, Texas – CMIT Solutions of Houston Willowbrook, the region's leading information technology solutions and services provider for the small and medium-sized business community, has earned a top national honor. For the month of February, the company presented Matt McCracken, president of CMIT Solutions of Houston Willowbrook, with the coveted "Franchisee of the Month" award.

"Matt has continually impressed us over the years," said Jeff Connally, CEO of Austin, Texas-based CMIT Solutions. "His level of commitment to supporting Houston and the surrounding area's small and medium-sized business community sets an example for our entire franchise system. We are honored to recognize his team for all of the progress they have made in the month of February."

McCracken has commanded CMIT Solutions of Houston Willowbrook to the top of the CMIT Solutions franchise system in nearly every category the company tracks to determine the award winner, including client satisfaction, revenue growth, and the number of client devices managed.

"Our team is incredibly honored to receive this award," added McCracken. "We have a great team that I am incredibly proud to work with - without their continued focus on technical excellence and customer service, we wouldn't be where we are today. The recognition serves as a reminder of our hard work and determination. We look forward to continuing to serve the IT needs of the community's small and medium-sized businesses."

CMIT Solutions' services help companies keep their strategic IT goals in focus by ensuring their computer systems are running, their data is protected, their network is secure, and, most importantly, their employees are productive. As a result, business owners benefit from increased efficiency, strategic information technology advice, and the ability to implement technology changes to improve their competitive posture.

CMIT Solutions' franchise offices are independently owned and operated. Unlike most local IT consultants, CMIT Solutions has established cost-saving relationships with well-known technology partners including Dell, Microsoft, and Intuit. Additionally, being part of a national franchise offers the opportunity to tap into a large consulting network of knowledgeable business owners and corporate support staff.
