

Geon[®]
PERFORMANCE SOLUTIONS

Dear Valued Customer,

Due to continued cost increases in PVC raw materials, we are implementing a price adjustment effective March 1, 2026, as contracts allow. This will include:

- A 2cpp increase on all PVC and CPVC products
- An additional 1cpp increase on all materials containing tin stabilizers

If you have any questions or would like to discuss the impact of this change, please contact your Geon Sales Representative. We value your business and appreciate your continued support.

Sincerely,

Arthur Adams

Chief Commercial Officer
