HEIRLOOM TOMATOES

Rutgers: 75 Days
(VFASt) All-purpose variety, ideal for canning. Ripens evenly from inside out. Bright red fruits with heavy walls average about 7 oz. Attractive, old-time favorite. Full-bodied flavor and disease resistant.
Determinate

Mortgage Lifter : 85 days.
An old pink variety still in demand by gardeners. Well-shaped, large fruit is very meaty with few seeds; similar to Giant Belgium, but not quite as big. Folklore says variety named by a man who sold this crop to pay off a farm he was about to lose. Indeterminate.

Abe Lincoln 87 Days.
Beautiful dark red fruits, sweet, solid and meaty. Fruits are smooth, free from cracks and seams, and - although large - ripen all the way through. Ideal for ketchup, juice or slicing.
Indeterminate.

Roma 75 days. Long-time favorite and still one of the best for sauces, pastes and canning. Pear-shaped 3-in. fruits feature thick walls, meaty flesh and few seeds. Along with being excellent in salads, they are ideal for thickening pastes and sauces. Compact determinate vines.

HYBRID TOMATOES

Jetsetter : 64 days Short season gardeners especially will be happy for this variety that doesn't sacrifice size or flavor for early maturity. Tomatoes are at least 8 ozs. And often larger with really good, rich flavor. Yields are plentiful on vigorous plants that have lots of disease resistance, offering even those in the South a great new early tomato. Indeterminate.

Cherokee Carbon 75-80 Days
Robust, purple, 10 to 12 ounce, beefsteak fruits are full of rich flavor. A cross of Cherokee Purple and Carbon. Heirloom Marriage Hybrid varieties are produced from modern day unions of heirloom parents, providing hybrid vigor while maintaining the virtue and integrity of their old-fashioned beginnings. They were bred for improved yield, earlier maturity, and fewer blemishes while maintaining old-time flavor.
Indeterminate.

Lemon Boy 72 days.
VFN The first lemon yellow, not golden, tomato variety, and still one of the best. Extremely vigorous plants produce large harvests of attractive fruit that weighs 8 ozs. Or more. Flavor is outstanding, mild and sweet yet tangy and definitely not bland. This one is easy to grow and understandably one of our most popular yellow tomatoes. Indeterminate.

HYBRID TOMATOES (cont'd)

Supersweet 100 cherry tomato: 65 Days
(VF) Staked hybrid plants produce long strands of 100 or more super-sweet cherry tomatoes, weighing about 1 oz. each and measuring 1" in diameter. Extra-high in Vitamin C. Plants bear fruits throughout the season. Requires staking or caging.
Indeterminate

Juliet: 60 days. The first grape tomato to win AAS honors, with long, 1-oz., shiny red, extra-sweet cherries, hanging like clusters of grapes. Crack-resistant and keeps longer on the vine. Excellent disease resistance. Indeterminate.

Tumbler: 45 Days
Specially bred for hanging baskets. Bushy plants have pliable stems, and look fantastic when mixed in containers with Lobelia or Ivy. Sweet, bright red fruits.
Determinate

EGGPLANT:

Nadia: 67 days. A beautiful, 6 to 8-in. long, glossy purple black Italian eggplant produced by the breeder of 'Savor' melon below! Firm, flavorful fruits are slow to develop seeds and have the classic European oval shape, weighing about a pound and setting fruits even under cool conditions. Ideal for grilling and stuffing. Try this one for its incredible productivity, the highest yielding eggplant in a recent trial of numerous hybrid varieties!

PEPPERS

California Wonder: 75 days. The perfect stuffing pepper, setting the standard for open-pollinated peppers years ago. Its medium-sized, 3 to 4-lobed, blocky, smooth fruits ripen from deep green to red. Thick-walled, 4 in. by 4-in. fruits on sturdy, 28-in. plants.

Gypsy Hybrid: 60 days ALL-AMERICA SELECTIONS WINNER. Outstanding yield, good looks and flavor combine with earliness to make this pepper a winner. Wedge-shaped fruit is 3 to 5 inches long, pale yellow at first, maturing to orange-red; very sweet when ripe. Plants have continuous pendant fruiting habit and perform well in both hot and cool regions.. Excellent for frying, grilling, or salads.

PEPPERS (cont'd)

Red Baron: 68 Days Formerly known as Red Beauty. The first widely-adapted red bell, soon to be king of the reds wherever it's grown. Impressive, 4-lobed fruits are packed with heavy, sweet flesh, and set early. High yielder.

Biggie Chili: 68 days. An improvement of the popular 'Big Chile'. Bred to have a stronger more vigorous plant with a heavier leaf canopy to protect the fruits from sunburn. In all other respects it has the same great qualities as the original Big Chile with big, thick-walled fruits up to 9 inches long that mature from light green to red, have mild pungency and produce huge yields. One of the best Anaheim-type chili peppers for the north.

Big Jim: (NuMex Heritage Big Jim) Big Jim smashes world records for largest chili pepper variety, with mammoth pods that reach a whopping 1 foot in length. The perfect pepper for chiles rellenos, grilling or stuffing, Big Jim delivers a perfect medium heat, a bit milder than an average jalapeño. A hardy and vigorous introduction from the chili pepper breeding project at New Mexico State University

Pimiento: 75 days. The first hybrid pimiento boasts extra sweet, heart-shaped, thick-walled, 3-in. by 3-in. fruits maturing from green to red. Best when roasted and peeled. Prolific, disease resistant, 36-in. plants.

MARIGOLDS

Petite yellow: A cheery, yellow crested Marigold that blooms very early on compact plants. This very easy-to grow variety bears a profusion of double flowers all summer long.

HERBS

Newton Basil: 21-30 days A fast-growing variety with a traditional Genovese flavor, it also features high resistance to Fusarium. Unlike similar varieties, Newton does not have a licorice aftertaste, appealing to a wide range of people. Large, bright green, crinkled leaves are great for vegetable wraps and fresh chopped herbs. Excellent for field and potted plant production with fast growth and large leaf size.
