HEIRLOOM TOMATOES:

Rutgers: 75 Days
(VFASt) All-purpose variety, ideal for canning. Ripens evenly from inside out. Bright red fruits with heavy walls average about 7 oz. Attractive, old-time favorite. Full-bodied flavor and disease resistant. Determinate

Mortgage Lifter : 85 days.
An old pink variety still in demand by gardeners. Well-shaped, large fruit is very meaty with few seeds; similar to Giant Belgium, but not quite as big. Folklore says variety named by a man who sold this crop to pay off a farm he was about to lose. Indeterminate.

Climbing Trip-L-Crop: 90 days.
Vine doesn't really climb, but can reach 15 ft. or more by season's end. Heavy yielder of dark pink fruit, each weighing about 1 lb. Tomatoes are mildly flavored and meaty with few seeds. Makes great spaghetti sauce.
Indeterminate.

Abe Lincoln 87 Days.
Beautiful dark red fruits, sweet, solid and meaty. Fruits are smooth, free from cracks and seams, and - although large - ripen all the way through. Ideal for ketchup, juice or slicing.
Indeterminate.

Roma 75 days. Long-time favorite and still one of the best for sauces, pastes and canning. Pear-shaped 3-in. fruits feature thick walls, meaty flesh and few seeds. Along with being excellent in salads, they are ideal for thickening pastes and sauces. Compact determinate vines.

HYBRID TOMATOES:

Jetsetter : 64 days Short season gardeners especially will be happy for this variety that doesn't sacrifice size or flavor for early maturity. Tomatoes are at least 8 ozs. and often larger with really good, rich flavor. Yields are plentiful on vigorous plants that have lots of disease resistance, offering even those in the South a great new early tomato. Indeterminate.

Early girl 57 days. Extra-early abundant yields of full-sized, 4 to 6-oz. fruits make this longtime favorite the most popular early tomato. Meaty, bright crimson fruits are a bit flattened, with firm flesh and smooth skins. Appealing looks and fabulous flavor. Indeterminate.

Container's Choice Red 70 days. Bred especially for containers! Vigorous, high-yielding plants with unusual wrinkled le es produce bright red, 6 to 8-oz., beefsteak-type fruits that ripen uniformly with no green shoulders. Determinate.

Cherokee Carbon 75-80 Days
Robust, purple, 10 to 12 ounce, beefsteak fruits are full of rich flavor. A cross of Cherokee Purple and Carbon. Heirloom Marriage Hybrid varieties are produced from modern day unions of heirloom parents, providing hybrid vigor while maintaining the virtue and integrity of their old-fashioned beginnings. They were bred for improved yield, earlier maturity, and fewer blemishes while maintaining

old-time flavor.
Indeterminate.

Lemon Boy 72 days.
VFN The first lemon yellow, not golden, tomato variety, and still one of the best. Extremely vigorous plants produce large harvests of attractive fruit that weighs 8 ozs. or more. Flavor is outstanding, mild and sweet yet tangy and definitely not bland. This one is easy to grow and understandably one of our most popular yellow tomatoes. Indeterminate.

SUPERSWEET 100 CHERRY TOMATO: 65 Days
(VF) Staked hybrid plants produce long strands of 100 or more super-sweet cherry tomatoes, weighing about 1 oz. each and measuring 1" in diameter. Extra-high in Vitamin C. Plants bear fruits throughout the season. Requires staking or caging.
Indeterminate

Juliet: 60 days. The first grape tomato to win AAS honors, with long, 1-oz., shiny red, extra- sweet cherries, hanging like clusters of grapes. Crack-resistant and keeps longer on the vine. Excellent disease resistance. Indeterminate.

Tumbler: 45 Days
Specially bred for hanging baskets. Bushy plants have pliable stems, and look fantastic when mixed in containers with Lobelia or Ivy. Sweet, bright red fruits.
Determinate

PEPPERS:

California Wonder: 75 days. The perfect stuffing pepper, setting the standard for open-pollinated peppers years ago. Its medium-sized, 3 to 4-lobed, blocky, smooth fruits ripen from deep green to red. Thick-walled, 4 in. by 4-in. fruits on sturdy, 28-in. plants.

Gypsy Hybrid: 60 days ALL-AMERICA SELECTIONS WINNER. Outstanding yield, good looks and flavor combine with earliness to make this pepper a winner. Wedge-shaped fruit is 3 to 5 inches long, pale yellow at first, maturing to orange-red; very sweet when ripe. Plants have continuous pendant fruiting habit and perform well in both hot and cool regions.. Excellent for frying, grilling, or salads.

Jupiter Pepper: 75 Days A long-time favorite reintroduced after years of being unavailable! One of the best open-pollinated varieties. Large, blocky 4-lobed, sweet-flavored fruits have thick green walls that ripen to red. Great for stuffing and freezing. Widely adapted and Tobacco Mosaic Virus tolerant. Sturdy, 30" plants have a dense leaf canopy that protects high yields.

Mini Belle Mix: 63-68 days. A special blend of miniature, multi-colored sweet bell peppers that starts maturing in only 9 weeks! Small, 1 1/4 in. by 1 1/4- in. bells start out green before ripening to many different shades of yellow and red. Fruits are thick-walled, firm and richly sweet. Disease-resistant plants grow to 24 in.

MARIGOLDS:

Petite yellow: A cheery, yellow crested Marigold that blooms very early on compact plants. This very easy-to grow variety bears a profusion of double flowers all summer long.

HERBS:

Newton Basil: 21-30 days A fast-growing variety with a traditional Genovese flavour, it also features high resistance to Fusarium. Unlike similar varieties, Newton does not have a licorice aftertaste, appealing to a wide range of people. Large, bright green, crinkled leaves are great for vegetable wraps and fresh chopped herbs. Excellent for field and potted plant production with fast growth and large leaf size.

Parsley, Single Italian:

Flat-leaved variety used in salad dressings, poultry, soups and as an ingredient of pesto. Flavor is much more pronounced than that of the more familiar curled type.
