

Bottle Caps to Benches

We can't believe the amazing response to our Bottle Caps to Benches Program! Not only have we had a great local response, we even have people sending in caps from other states… as far away as Texas!

So far, we have sent 1,533lbs to Plastics R Unique in Wadsworth and turned those into 5 benches (as of printing, we still have at least that much to sort and weigh!)

We will continue to collect caps through September 23rd. If you're collecting as a group and have entered the contest, we'll announce the winner at Enchanted Forest on October 7th and 8th.

We anticipate we'll have enough to make at least 30 benches that we will place around our preserves. If you or your group would like to donate caps, email Joyce (TWC@WildernessCenter.org). If you would like to purchase and dedicate a bench, please email Maureen (Maureen@WildernessCenter).
