## Executive Summary

 2023-24 Annual BudgetMulticultural and multigenerational growth is a priority of All Souls, and our 2022-23 budget reflects these priorities. To help us get moving in a positive direction post COVID, All Souls contracted Faith $X$, a church growth organization, to help us learn about the needs of the community within a five and 15 minute drive of All Souls. Per the experts at FaithX, "The people within a 5 minute drive are whom we serve with onsite justice and those within a 15 minute drive are our most likely candidates for membership growth." There is significant evidence in growing congregations that support this notion of really focusing on prospects in the 15 min drive radius. Here is some of what we learned about the people in our surrounding area:

- The average age range is 41.2 (5 min range) and 37.2 (15 minute range), significantly lower than our church's average age range.
- Food insecurity and housing insecurity are major issues for this population.
- This is also a tech savvy population that uses the internet, YouTube and Social Media (Facebook, Instagram, etc.) to get their information and to build community.

This demographic information was considered in the crafting of this year's budget, which, among other areas, focuses on technology upgrades and providing food at more events. Technology upgrades include a website refresh, closed captioning, and AV upgrades. Our current website is not designed for easy scrolling which is one of the main methods younger generations use when viewing online. We will also be looking to improve the Sunday morning experience by making closed captioning available inside the sanctuary and online. This means adding screens, improving some audio/visual and making some other adjustments to our building. We will be offering food at more events to help meet the needs of both people already in our congregation and new people who will be coming in. Additionally, we will look to brighten up our sanctuary so that it feels more welcoming.

We are pleased that this budget includes a 6\% COLA salary increase for most of our staff to help offset the current high inflation rate. And of course, we have to continue to budget for the ongoing maintenance of our aging building.

We have done an excellent job of securing grants that help us fund our work, but for the long-term, we have to develop income-raising options other than grants. We are adding a fundraising team to help us think of some creative ways to raise additional sustainable funds, with the goal of raising a net of $\$ 15 \mathrm{~K}$ this year. If you have ideas or want to be part of this team, please let Rev. Katie know.

You will notice that we have altered how we are budgeting for expenses; we have added new line items. These changes were made to be more reflective of actual expenses and transparent about how we are spending money. These changes make it more difficult to compare apples-to-apples to last year's budget, but after this transition year, the year-to-year comparison will be easier as this budget will be the new standard.

| Proposed Budget 2023-24 |  |  |  |
| :---: | :---: | :---: | :---: |
| REVENUE | $\begin{array}{r} \hline \text { 2022-2023 } \\ \text { Actual YTD } \end{array}$ | $\begin{gathered} \hline \text { 2023-2024 } \\ \text { Budget } \\ \hline \end{gathered}$ | Notes |
| Pledges Received | 296,018.79 | 379,000 |  |
| Plate Collections | 21,304.02 | 20,000 | Includes those who pay regularly but don't pledge |
| Share the Plate Donations | 2,464.23 | 5,000 | This is $100 \%$, then $50 \%$ goes to designatred group (see expenses) |
