Playspace Engineering & Spy-tech Camp

All New!

Construct a solar powered playground & use Science Detective skills to solve a mystery.

Design & build your own eco-friendly, solar powered & motorized playspace, complete with a water slide, swings, a merry-go-round and a vibrating sled ride. Solve the mystery of the missing Zylong bug using fingerprints, chemistry & DNA testing! Build and take home a lie detector, a DIY electronic spy hat, walkie talkies, and more.

Galactic Space Training Camp

All New!

Create your own Millennium Starship and motorized Droid to complete space challenges.

Join the DS Jedi Training Academy! Build your own Millennium Starship & earn a light-powered science saber. Complete Jedi tricks using magnetism, infrared light, and sound waves! Construct your own motorized Rover Droid to adapt to different planets. Your indispensable sidekick is waiting for your command!

Robot Island & Movie Makers Camp

All New!

Make motorized Bots & uncover the science behind animated movies.

Welcome to Robot Island where curious minds transform the island into a science fun park for Robotic adventures! Build motorized Bots able to protect the driver while ziplining, climbing hills & battling. Engineer traffic lights, mini robots, & gravity-powered mazes! Explore animated movie making and take home our own movie making kit!

STEAM Inventors & Anti-gravity Racers Camp

All New!

Invent using a STEAM machine & explore physics with your own Anti-Gravity Racer.

Harness the power of STEAM: science, technology, engineering, art and math, to master your amazing Oonie Maker Machine. Spark curiosity with the force of air-power, polymer technology, structural engineering, catapults, artistic color theory and math gaming. Uncover radio waves and vacuum power with your wall climbing RC Anti-Gravity Racer!
