

## **Badger Spanish Students Help Area Adults Learn English**

Badger High School students who take Señora Nicias' Spanish classes are putting their language skills to good use to help area adults learn and practice English.

The Badger Community Education program offers adult English classes throughout the year. Participants in the fall 2016 session are enjoying the added bonus of having opportunities to practice their conversational English with Badger Spanish students. The Badger students are delighted to participate, not only to help others in our community learn English, but also because it gives them an opportunity to practice a little Spanish, too. It's a win-win for everyone.

For more information on Badger Community Education's Adult English classes, please see [page 12 of our Fall Program Guide](#).
