

## “ Did you know...

More than 43 million adults in the United States cannot read, write, or do basic math above a third-grade level and less than 10% are receiving services. Children whose parents have a low literacy level have a 72% chance of being at the lowest literacy level themselves.

Our Moonshot Community is working to improve two-generation literacy by teaching adults to read too. We invite you to join the Moonshot journey to make IRC a literacy capital of the world!
