

## HOUSE OF ROHL

House of Rohl proudly presents A Closer Look Academy. Just as we see the potential in stone and clay, brass and steel, to be poured and casted, glazed, fired, and transformed into the finest of fixtures, we also see our collective potential to transform houses to homes by elevating your unique design style.

Join us on our quest to curate the best; the best products, the best designs and most importantly, the best people. There are stories in every detail and the closer you look, the more you'll see your own story of a life well crafted.
