The Leading HR Software For Medium And Small Businesses

TriNet Cloud is a suite of powerful yet easy to use cloud applications designed to enable companies to manage employees and increase efficiencies —from seamless expense reporting, to tracking employee performance. TriNet Cloud is intuitive, effective and appreciated by managers and employees alike. Affordable and essential, these applications support you and your workforce in managing everyday HR tasks.

TriNet Expense

A better way to manage expenses and time

Eliminate the hassle of collecting, storing, submitting, and tracking cumbersome paper expense reports and timesheets. TriNet Expense automates the expense report process and timesheet management, online or from a mobile device.

TriNet Expense features credit card auto-imports, receipt storage, mileage tracking, online approvals, expense policy enforcement, company spend analytics and job cost management. Organize job cost by implementing the time tracking feature and create timesheets recording billable/non-billable hours.

TriNet Expense offers a direct integration with leading accounting applications, and data can also be downloaded into a PDF or custom CSV for uploading with accounting or payroll applications. TriNet customers can reimburse their employees quickly and easily using the TriNet Payroll integration. Set up Direct Pay ACH reimbursement for an additional fee to reimburse employees through direct deposit. Payment is directly submitted to the banking account within five business days. Learn more at TriNetExpense.com.

TriNet Hire

Simple and powerful applicant-tracking software

TriNet Hire is a simple and powerful cloud-based recruiting tool that makes posting to job boards and managing your candidates easy. Effortlessly create new job posts and post to the job boards that matter. Promote via social media by directly interfacing with your Twitter, Facebook and LinkedIn profiles.

Our powerful team integration means your hiring team can review resumes, download file submissions and also attach feedback, ratings and keywords. Everything is captured, retained, shared and searchable in the detailed candidate profile. Automate your process using our robust, customizable workflows. Request detailed skills assessments or ask custom questions within in your job ads. TriNet Hire's online and mobile applications enable your business to hire the best talent quickly and efficiently. Learn more at TriNetHire.com.

TriNet Perform

Performance management as dynamic as your team

TriNet Perform makes employee performance management simple. Perform helps your company manage goals effectively, captures real-time feedback from your entire workforce and makes performance reviews painless.

Align employees with company vision using simple and smart goals that are trackable over time. Cascading goals allow for greater transparency around how your company measures success, the specific value an employee adds to your company and the impact of both good and poor performance. Dive into visual reports for company, team and individuals any time of year, see overall progress on goals, and dig into details, including milestones and feedback. Keep on top of progress with automated email notifications for goals reached. Our intuitive design and pre-loaded templates makes this application easy to adopt. Yet it's easily customizable as well. New users can sign up for a free trial and start using it in minutes. Learn more at TriNetPerform.com.

TriNet Marketplace*

Instant sales channel reaching hundreds of thousands of people

TriNet Marketplace is a free sales channel available exclusively to TriNet clients. Use this ready-made credible and vetted channel to sell to other TriNet clients and their employees. Businesses and people alike gain substantial savings on the goods and services available through Marketplace. TriNet has also negotiated special pricing with companies such as Apple, AT&T, Dell, Hertz, HP and more—so you can take advantage of valuable products and services to reduce your cost of doing business. Learn more at TriNetMarketplace.com.

TriNet Learn*

Courses designed to drive your business while building your employees' skills

TriNet Learn serves as your own learning and development department. It offers over 500 courses that help employees apply what they learn to real-world business opportunities and challenges. With an extensive library that includes accounting, finance, workplace ethics, business writing, computer skills and compliance training, TriNet Learn is an easy and cost-effective way to develop your employees' full potential and move your business ahead. Learn more at TriNet.com/Learn.

TriNet Time*

Better workforce decisions with accurate time management

Do you have a way to track your employees' non-salaried hours, project-based work and overtime? As your workforce grows, so does the complexity of your payroll, forcing you to reconcile part-time, seasonal and contractor hours. In addition, mistakes resulting from complicated forms and data issues can lead to expensive repercussions. TriNet Time can help you.

TriNet Time incorporates a clock that provides real-time punch data and employee self-service. It gives managers advanced metrics tracking, labor data analysis, intuitive visual schedulers, a customizable dashboard, built-in support tools and a mobile interface as well as advanced accrual tracking. TriNet Time helps you maintain compliance with local, state and federal labor laws. Learn more at TriNet.com/Time.

* TriNet Marketplace, TriNet Time and TriNet Learn are only offered with TriNet bundled HR products, which provide services such as payroll processing, human capital consulting, employment law compliance and employee benefits, including health insurance, retirement plans and workers' compensation insurance.
