The standard Part B premium amount in 2017 will be \$134 (or higher depending on your income). However, most people who get Social Security benefits will pay less than this amount. This is because the Part B premium increased more than the cost-of-living increase for 2017 Social Security benefits. If you pay your Part B premium through your monthly Social Security benefit, you'll pay less (\$109 on average). Social Security will tell you the exact amount you will pay for Part B in 2017. You'll pay the standard premium amount if:

- You enroll in Part B for the first time in 2017.
- You don't get Social Security benefits.
- You're directly billed for your Part B premiums.
- You have Medicare and Medicaid, and Medicaid pays your premiums. (Your state will pay the standard premium amount of \$134.)
- Your modified adjusted gross income as reported on your IRS tax return from 2 years ago is above a certain amount. If so, you'll pay the standard premium amount and an Income Related Monthly Adjustment Amount (IRMAA). IRMAA is an extra charge added to your premium.
