### ***“Technology, Efficiency, and Collaboration: Innovations to Improve Municipal Practice”***

Do you sense funding streams drying up or getting diverted away from your municipal work? When this happens we look for ways to work smarter by turning our focus to innovative approaches like using technology, increasing efficiency and building collaborations. These three approaches form the theme for our 2018 Conference looking for innovative ways to improve municipal practices. Keynote panelists will share their state-level insight for Vermont and offer suggestions on how municipalities can incorporate these approaches to extend resources.

**Special thanks to our 2018 Gold Sponsor the *Department of Taxes, Division of Property Valuation and Review.***

## **Scholarship Opportunities Available!**
